ECONOMY IS WEAL

We understand what the people want.

They want goods at the lowest possible price.

They want to pay cash and use credit.

They don't want to pay extra for the so-called "best goods."

They don't want to pay their debts when dealing with a store, which they are compelled to do, because the dealer must get his profit to make up for his losses by not paying cash.

But they do want to buy from a store that sells only for cash and uses credit, which is the lowest possible price, and who immediately sends the bill to the consumer, thereby saving the consumer a cost of paying cash.

The policy of the Bargain Store is to give the buyer all the discount.

Everything in the line of Clothing, Shoes, Hardware, Vaseline, to be had at panic prices at the

BARGAIN STORE.
